## **Purpose of Guide**

This **General Ledger Guide** covers the process of data entry and routine tasks such as creating journal entries, creating deposits, and reconciling bank accounts, as well as information on various utilities available in the General Ledger Software.

The **Administrator Guide** includes information on setting up the startup files, including GLS Clients, journals, departments, and the Chart of Accounts.

The **Integration Guide** covers information related to integration between Tabs3 and PracticeMaster products and provides initial configuration information. Additional information related to integration is available throughout the Tabs3 and PracticeMaster documentation, particularly the built-in help feature in the software itself.

All guides are available on our Web site at:

**[Tabs3.com/support/docs.html](http://Tabs3.com/support/docs.html)**

## **Introduction**

Tabs3 General Ledger Software (GLS) is a comprehensive general ledger system based on a double-entry accounting system. User-defined chart of accounts and financial statement formats allow you to use your existing chart of accounts. The General Ledger Software supports multiple departments (profit centers), which allows each financial statement and report to be printed by individual department or as a comprehensive statement of all departments. Reports include detail journals, general ledger, trial balance, detail and summary balance sheets, plus detail and summary income statements.

# Chart of Accounts

- Menu:** [File](#) | [Open](#) | [Chart of Accounts](#)  
**Home:** [All Actions](#) | [Chart of Accounts](#) | [Chart of Accounts](#)  
**Quick Launch:** [Chart of Accounts](#)

The *Chart of Accounts* is the foundation of any general ledger system. The Chart of Accounts is a listing of the general ledger accounts for a business entity that includes account name and number.

The screenshot shows a window titled "Chart of Accounts" with a search box and a "Show Inactive" checkbox. Below is a table with columns: Description, Account Type, Account #, and Dept.

Description	Account Type	Account #	Dept
Assets	Asset	1000.00	0
Current Assets	Asset	1010.00	0
Cash	Asset	1100.00	0
Operating Account	Bank Account	1110.00	0
Money Market	Bank Account	1120.00	0
Payroll	Bank Account	1130.00	0
Petty Cash	Bank Account	1140.00	0
Total Cash	Asset	1199.00	0
Client/Employee Advances	Asset	1200.00	0
Advanced Client Costs	Asset	1210.00	0
Employee Advances	Asset	1220.00	0

Figure 1, Chart of Accounts window

As journal entries are posted to accounts, account balances are established. These balances make up the figures used in reports such as the Income Statement and Balance Sheet.

**More Info:** Detailed information on setting up the Chart of Accounts and establishing balances can be found in the **Administrator Guide**.

# Journal Entries

- Menu:** [File](#) | [Open](#) | [Journal Entries](#)
- Home:** [All Actions](#) | [Journal Entries](#) | [Journal Entries](#)
- Quick Launch:** [Journal Entries](#)

Financial information in Tabs3 General Ledger (GLS) is tracked via the use of *journal entries*. Journal entries maintain a record of activity for the various accounts defined in the Chart of Accounts. Journal entries can be added manually or via software integration with other Tabs3 programs. The Journal Entries window is composed of two tabs: the **Transaction** tab and the **Batch** tab.

Figure 2, Journal Entries - Simple Transaction

## Transactions

The **Transaction** tab is used to add, change, or delete journal entries. Journal entries are grouped into *transactions*. A transaction is a set of balanced journal entries that are related to one another. General Ledger requires that debits and credits for a transaction be in balance before it can be saved.

Transactions can vary in complexity. Figure 2 shows a simple journal entry with a single debit and a single credit entry, whereas Figure 3 shows a complex transaction with a single debit and multiple credit entries. You will encounter various combinations of the two during everyday journal entry.

Figure 3, Journal Entries - Complex Transaction

Journal entries consist of several fields, many of which are self-explanatory. Fields that require further explanation are listed below.

**More Info:** Detailed information on all fields can be found in GLS Help.

**Trans #** The **Trans #** field contains a unique identifier assigned to each transaction. Entering an existing transaction number will load all journal entries for that transaction, whereas pressing Enter in this field when adding a new transaction will automatically assign a new **Trans #**.

**Type** The **Type** field can be used when entering receipt and disbursement journal entries to classify the type of transaction taking place. Examples of the transaction types available to choose from are cash, check, client funds, credit card, EFT, other, and none.

**Reference** The **Reference** field is an optional field used for categorizing journal entries. For example, journal entries for Tabs3 Billing payments will automatically contain the Client ID for which the payment was entered.

**R (status)**

The **Status** field, displayed as a column heading of **R** on the **Transactions** tab, indicates the status of a reconciled entry. The contents of the field vary depending on the entry's status. A blank field indicates the journal entry has not been cleared or reconciled. A letter **C** indicates that the journal entry has been cleared on a reconciliation but not yet reconciled. An **R** indicates that the journal entry has been reconciled.

**Difference**

The **Difference** field in the Subtotal section keeps a running balance of total debits and credits entered for a transaction. When a transaction is in balance, the **Difference** will show "0.00". If a transaction is out of balance, the **Difference** will show the amount out of balance. A transaction must have balanced debit and credit entries with a **Difference** of 0.00 in order to be saved.

**Subtotal**

The **Subtotal by** section displays journal entry subtotals for transactions or batches. Transactions and batches can be subtotaled using one of several options, such as **Check #**, **Description**, or **Reference**. A subtotal for both debits and credits is displayed, as well as the **Difference** between debits and credits for the selected subtotal type. A transaction must have balanced debit and credit entries with a **Difference** of 0.00 in order to be saved.

**Source**

The **Source** field indicates the origin of a journal entry. The following legend lists each possible source:

Transaction Source	Journal Entry Origin	Report Character
Manual	Tabs3 General Ledger Software (GLS)	M
Accounts Payable	Tabs3 Accounts Payable Software (APS)	A
Billing	Tabs3 Billing Software	B
Trust Accounting	Tabs3 Trust Accounting Software (TAS)	T
Recurring Entry	Tabs3 General Ledger Software	R
Payroll	Peninsula Software's PenSoft Payroll or the GLS Import Journal Entries program	P

## Batches

The **Batch** tab provides a read-only history of the selected transaction along with any other transactions associated with the specified transaction. Typically, related transactions are generated via integration with Tabs3 Billing, APS, or TAS. For example, the allocation of a payment in Tabs3 Billing creates a set of journal entries transferring money to the pre-configured general ledger accounts. As another example, voiding a check in APS posts the voided check journal entries in a new transaction but in the same batch as the journal entries created for the check. You can also add new transactions to the **Batch** tab manually by clicking  or pressing Ctrl+N.

Trans #	Date	Account	Debit	Credit	Description	Type	Check #	Jnl Reference
264	06/28/2022	1210.00 D - Advanced Client Costs	15.00		Superior Court of Califo	Check	25662	3
264	06/28/2022	1110.00 D - Operating Account		15.00	Superior Court of Califo	Check	25662	3

Subtotal by:  Debits: 15.00 Credits: 15.00 Difference: 0.00 Subtotal for Check #: 25662

Journal Entry Details  
Source: Accounts Payable User ID: CATHY Date Entered: 08/22/2022

Figure 4, Journal Entries - **Batch** tab

Double-clicking a journal entry from the **Batch** tab, or selecting a journal entry and clicking the **Transaction** tab, will open that transaction. All journal entries that are part of the selected transaction will be shown.

### ► To add a journal entry

1. From the **File** menu, select **Open** and click **Journal Entries**.
2. Press the Tab key. GLS automatically assigns the next available transaction number.
3. Enter the **Date**. (Note: All journal entries in a transaction must use the same date.)
4. Enter the desired information for the journal entry.
  - a. In the **Account** field, enter the **Account #** or select one from the drop-down list.
  - b. In the **Debit** field or **Credit** field, enter the amount.
  - c. Enter a **Description**.
  - d. In the **Type** field, select the appropriate type of transaction.
  - e. Enter a **Check #**, if appropriate.

- f. Select the **Jrnl** number.
  - g. Enter a **Reference**, if appropriate.
5. Press the Enter key or the Tab key to move to the next line.
  6. Repeat step 4 for each new journal entry.

**Notes:** Once the first journal entry for a data entry session has been entered, the Description, Type, Check #, Jrnl, and Reference fields for subsequent journal entries will be the same as the previous journal entry.

After the first journal entry row has been added to the transaction, each subsequent journal entry will automatically default to the amount required to balance the transaction. For example, if the first journal entry has 250.00 in the Debit column, the next row will automatically default to 250.00 in the Credit column. If you change the amount for the second journal entry from 250.00 to 150.00, then the next row will automatically default to 100.00 in the Credit column.

7. Click  to save the new journal entry.

**More Info:** A complete list of all programs that create transactions and batches can be found in GLS Help by entering "Batch" in the **Index** tab and selecting the "How Assigned" topic.

## Journal Entry Verification List

After closing the **Journal Entries** window, you will be prompted to print a **Journal Entry Verification List**. This Verification List provides a record of all transactions added, changed, or deleted during a data entry session. This makes it easy to keep a review of all journal entries posted during the data entry session.

**Note:** More information on the Journal Entry Verification List can be found in GLS Help.

## Account Information

- Menu:** [File](#) | [Open](#) | [Account Information](#)
- Home:** [All Actions](#) | [Chart of Accounts](#) | [Account Information](#)
- Quick Launch:** [Account Information](#)

The **Account Information** window is used to view balances, view and set budget figures, and view journal entries for a specific time frame. The **Period Selection** options allow you to display three fiscal years worth of data or compare the difference between two years. The Account Information window is a powerful feature that provides a quick and easy way to find the information you are looking for.

The Account Information window consists of three tabs:

- **Balances**
- **Budgets**
- **Journal Entries**

## Balances Tab

The **Balances** tab (Figure 7) is used to view and compare current and past balances for the selected account. This allows you to see account changes over time and quickly reference recent balance activity.

## Journal Entries Tab

The **Journal Entries** tab (Figure 12) displays a list of journal entries for the selected account within a specified time frame. The journal entries displayed can be filtered using the **Date** drop-down menu in the **Period Selection** section (Figure 11).

The screenshot shows the 'Account Information' window with the 'Journal Entries' tab selected. The account is 'Office Rent' (Expense - Debit) with account number 8010.00. The 'Period Selection' dropdown is set to 'All'. Below, a table lists journal entries for monthly rent payments. A secondary dropdown menu is open, showing options for date selection.

Date	Description	Debit	Credit
08/11/2022	D & B Real Estate - Monthly Rent	6,500.00	
07/18/2022	D & B Real Estate - Monthly Rent	6,500.00	
06/16/2022	D & B Real Estate - Monthly Rent	6,500.00

# Deposit Slips

**Menu:** [File](#) | [Open](#) | [Deposit Slips](#)  
**Home:** [All Actions](#) | [Journal Entries](#) | [Deposit Slips](#)  
**Quick Launch:** [Deposit Slips](#)

The Deposit Slips program is used to combine one or more receipt type transactions onto a single deposit slip for a bank account. Deposit slips are created after the journal entries have been made. Once created, you can print a **Deposit Summary** to take to the bank with the checks.

Creating a deposit slip with combined deposits makes it easy to reconcile deposits on your monthly bank account statement.

In the following figures, the firm has received four checks on the same day. Each check has been recorded in GLS (as part of a separate transaction). Once the journal entries have been posted, the **Select Receipts** button (Figure 14) is used to open the **Select Receipts to Deposit** window (Figure 15) allowing you to select which receipts are to be included in the deposit.

Figure 14, Deposit Slips window

Figure 15, Select Receipts to Deposit window

The following fields are shown in the **Deposit Slips** window (Figure 14).

- Deposit #** The **Deposit #** field acts as a unique identifier for the currently selected deposit slip. Pressing Enter will create a new deposit slip with the next available number.
- Deposit ID** The **Deposit ID** field can contain up to 20 characters of information. By default, this field is populated with the date in yyymmdd format with the value representing the **Deposit Date**.
- Deposit Total** The **Deposit Total** is a calculation based on the total amount of all receipts shown in the Selected Receipts area of the window.
- Check Mark (✓)** The **Check Mark** indicates that a record has been selected to be included on the Deposit Slip and counted as part of the **Deposit Total**.

The **Print Deposit** button in the Deposit Slip window (Figure 14) can be used to print a **Deposit Summary** (Figure 16).

Chk #	Date	Rcpt Type	Reference	Description	Amount
	08/22/2022	Cash		Payment	3,723.40
<b>Total Cash</b>					3,723.40
18542	08/22/2022	Check		Referral Fee	25,000.00
3245	08/22/2022	Check		Payment	1,382.35
<b>Total Checks (2 Items)</b>					26,382.35
<b>Deposit Total (2 Items)</b>					30,105.75

Figure 16, GLS Deposit Summary

► **To add a new deposit slip**

1. From the **File** menu, select **Open** and then click **Deposit Slips**.
2. In the Deposit Slips window, press Enter (or click  ) to assign a new **Deposit #**.
3. Enter the **Deposit Date** and **Deposit ID**.
4. Select the desired bank account using the **GLS Account #** drop-down menu.
5. After specifying the **GLS Account #**, the **Select Receipts to Deposit** window will be displayed allowing you to select which receipts will be included in the deposit. Once the desired receipts have been selected and a check mark is displayed for those receipts, click **OK** to close the Select Receipts to Deposit window.
6. Verify the **Deposit Total**.
7. Click  to save the new deposit slip.
8. Click the **Print Deposit** button if you want to print a Deposit Summary.

## Bank Account Manager

**Menu:** *File | Open | Bank Account Manager*  
**Home:** *All Actions | Chart of Accounts | Bank Account Manager*  
**Quick Launch:** *Bank Account Manager*

The Bank Account Manager provides a summary view of all of the bank accounts and credit card accounts in GLS. From this window, you can view bank account/credit card account information, see the date of the last import and reconciliation performed for each bank/credit card account, and

view the bank/credit card account's current balance. The Bank Account Manager also provides access to the Import Bank Transactions, Confirm Transactions, and Reconciliation programs.

Figure 17, Bank Account Manager

Only accounts configured with an **Account Type** of Bank Account or Credit Card will appear in the Bank Account Manager window. The **Account Type** is defined in the Account Setup window via the Chart of Accounts. Once you have designated an account as a bank account or a credit card account, the **Bank Info/Card Info** button will become available. This window allows you to specify the bank name, description, and account number for the selected account. You can also specify a password to use for PDF reconciliation reports generated by GLS.

## Import Bank Transactions

- Menu:** [Maintenance | Import Bank Transactions](#)
- Home:** [All Actions | Utilities & Maintenance | Import Bank Transactions](#)
- Quick Launch:** [Import Bank Transactions](#)

The Import Bank Transactions program allows you to import information via a file from your bank or credit card company. File formats supported include the .OFX, .QFX, and .QBO file formats. During the import process, GLS will automatically match the imported transactions with existing journal entries or deposit slips, and allow you to quickly create new journal entries or deposit slips based on the imported transactions. After transactions have been imported and matched, you can use the Confirm Transactions program to “confirm” each match and mark each matched transaction as Cleared. This saves you time when reconciling your bank account.

**Note:** More information on the Import Bank Transactions program can be found in GLS Help.

Description	Date	Debit	Credit	Type	Check #	Reference
CHECK DEPOSIT TO SBA 20220702	07/02/2022	5,000.00		Direct Deposit		980315001

# Reconciliation

**Menu:** [Maintenance | Reconciliation](#)  
**Home:** [All Actions | Journal Entries | Reconciliation](#)  
**Quick Launch:** [Reconciliation](#)

Tab3 General Ledger's Reconciliation program makes it easy to reconcile bank and credit card statements against activity within the General Ledger Software. When starting the Reconciliation program, the Reconciliation Settings window is displayed. From the Reconciliation Settings window, you can:

- Select the bank account or credit card account to reconcile
- Confirm the beginning balance automatically calculated by GLS
- Enter the ending balance from your bank statement
- Enter interest and service charge information from your bank statement

Figure 20, Reconciliation Settings window

Once you have entered your Reconciliation Settings (Figure 20) the **Reconciliation** window (Figure 21) will be displayed. This window includes a list of outstanding journal entries and deposits, a section for tracking cleared totals, and a section for tracking reconciliation balances.

Figure 21, Reconciliation window

GLS also includes an Undo Reconciliation program, which allows you to reverse a reconciliation in order to make any necessary changes.

Figure 22, Undo Reconciliation

**More Info:** For more information on the Reconciliation and Undo Reconciliation programs, see the GLS Help.

Recurring entries are typically posted once a month using the **Post Recurring Entries** program. This program creates journal entries for each item selected to post.

## Additional Resources

With its customizable Chart of Accounts, simple and intuitive data entry system, and informative reporting features, Tabs3 General Ledger Software offers a wide array of utilities for tracking financial information. This section includes additional resources and information on the features discussed in this guide.

## Help

The Help contains detailed information on all features of the software. The Help is accessible by pressing F1 from anywhere within the software; doing so will load the Help information for the particular feature being accessed.

## Knowledge Base

Tabs3's extensive Knowledge Base is available 24 hours a day, 7 days a week. The Knowledge Base can be accessed from within the software by selecting **Help | Internet Resources | Knowledge Base**. You can also access the Knowledge Base from any Internet-enabled device by navigating to:

**[support.Tabs3.com](http://support.Tabs3.com)**

## Training Videos

Training videos are multimedia resources that walk you through General Ledger features. Select **Help** | **Training Videos** to access the training video libraries. The training videos can also be accessed at:

**[Tabs3.com/videos](https://www.tabs3.com/videos)**

## Report Pack

The General Ledger Report Pack makes it easy to familiarize yourself with the various reports available and the criteria used to create them.

All guides and report packs are available on our Web site at:

**[Tabs3.com/support/docs.html](https://www.tabs3.com/support/docs.html)**

## Tabs3 Support

Tabs3 Software provides some of the best support in the industry. Service to our customers is extremely important to us—so much so that our motto is:

***Reliable software. Trusted service.***

Support is provided at no charge with a maintenance plan and is available from 8:00 a.m. to 5:00 p.m. Central Time, Monday through Friday. If you have any questions, please feel free to call our Support staff at (402) 419-2210.

Email support is also available for all firms on maintenance. Our support team responds to emails during office hours. Our goal is to respond to your question within one business day. Please keep in mind that time-sensitive and complex issues are better handled over the phone. To request email support, visit **[Tabs3.com/support](https://www.tabs3.com/support)**.
